The School
Centennial High School is a four-year comprehensive high school accredited by the North Central Association of Colleges and Secondary Schools and by the Illinois Board of Education. The mission of Centennial High School is to create a safe community of trust, respect, collaboration, and solidarity; we celebrate differences, support growth, character, positive relationships, and academic achievement in preparation for the future.

Our most recent graduating class (class of 2019) has earned more than $5,000,000 in scholarships as well as admissions into several highly selective institutions.

Grade Point Average
Grade Point Average is determined by adding all of the student’s grade point values and dividing by the number of courses taken. All courses except Physical Education and Driver Education (Classroom and Behind the Wheel) are used to compute grade point average. Credit is awarded by semester.

Weighted Grade Point Average
Unit 4 uses a 4.0 grading scale to generate the unweighted grade point average; to generate the weighted grade point average, a weighting factor of 1.0 is added to grades A+ thru D earned in Honors Level courses. Unweighted GPA is reported on college applications unless a weighted GPA is specifically requested by the college. Both weighted and unweighted GPAs are listed on the official transcript submitted to colleges. An average is determined by adding all of the student’s grade point values and dividing by the number of courses taken. Students are ranked based on their averages. All courses except Physical Education and Driver Education (Classroom and Behind the Wheel) are used to compute weighted grade point average.
